Pakistani Rosa damascena — Direct from Origin

KOHENoor INTERNATIONAL

Dried Rose Petals · Buds · Powder · Rose Water

Exporting to 65+ countries · HS 06039000 · 121190 · 3301

Welcome to Kohenoor International

Kohenoor International is a Pakistan-based exporter specializing in **Rosa damascena** — the Damask rose — cultivated across the fertile Punjab and Khyber Pakhtunkhwa rose belts. For over a decade we have supplied dried rose petals, rose buds, rose-petal powder, and steam-distilled rose water to tea blenders, cosmetic houses, pharmaceutical formulators, confectioners, and perfumeries across the Middle East, Europe, CIS, East Asia, and North America.

We operate direct from origin — no middlemen, no re-exporters. This gives our buyers three decisive advantages: **lower landed cost** (we skip 1–2 trading layers), **batch traceability** (every consignment is tracked from field to container), and **custom grading** (we cut, sieve, and pack to each buyer's specification).

Company Snapshot

Company	Kohenoor International
Headquarters	Lahore, Pakistan
Export network	65+ countries across MENA, EU, CIS/EAEU, East Asia, Americas

Dried Rose Petals

Rosa damascena — sun- & shade-dried, single-origin

HS Code	0603.90.00	MOQ	100 kg
Origin	Pakistan (Punjab / KPK)	Shelf Life	24 months (sealed)

Grades Available

Premium A: Deep pink/red, intact petals, uniform color, <2% foreign matter. **Grade B:** Light pink/mixed tones, 85%+ intact petals, ideal for cosmetic powder feedstock. **Culinary cut:** Standardized 3–8 mm fragments for tea blending and confectionery.

End-Use Applications

Tea blending (signature rose, rose-jasmine, rose-green blends), potpourri & decorative mixes, confectionery (lukum, gulkand, rose halwa), bath & spa salts, wedding confetti, herbal medicine preparations, and cosmetic feedstock for maceration.

Packaging Options

Retail: 50g / 100g / 250g / 500g / 1kg craft or resealable pouches. Bulk: 5 kg / 10 kg / 25 kg food-grade PE-lined kraft bags. FCL bulk: 20 kg compressed bales for maximum container fill.

Technical Specifications

Botanical name	Rosa damascena Mill.
Appearance	Whole/semi-whole petals, natural deep pink to red
Moisture content	≤ 10% (standard) / ≤ 8% (premium export)
Foreign matter	≤ 2% (Premium A) / ≤ 5% (Grade B)
Drying method	Natural shade-dried, low-temperature tunnel-assisted
Sulfur treatment	None — 100% unsulfured, undyed
Sterilization	Optional steam or UV treatment on request
Aroma profile	Sweet, rich, classic Damask rose with honey undertones
Certifications	Halal, COA per batch, EU MRL pesticide panel available

Dried Rose Buds

Rosa damascena — whole unopened buds, export grade

HS Code	0603.90.00	MOQ	100 kg
Origin	Pakistan (Punjab / KPK)	Shelf Life	24 months (sealed)

Grades Available

Premium A (1.5–2.5 cm): Uniform, tightly closed buds — premium tea & gifting grade. **Grade B (1.0–1.5 cm):** Smaller buds ideal for blending and potpourri. **Commercial:** Mixed sizes, cost-optimized for volume buyers.

End-Use Applications

Whole-bud flower tea (popular in Chinese, Turkish, Russian, and Gulf markets), luxury gifting tins, potpourri and aroma blends, herbal apothecary formulations, wedding favors, and premium decorative confectionery topping.

Packaging Options

Retail: 25g / 50g / 100g / 250g premium tins or glass jars. Bulk: 5 kg / 10 kg / 25 kg cartons with PE inner liner. Container: 40' HC fills 6–8 tons (volume-constrained).

Technical Specifications

Botanical name	Rosa damascena Mill. — bud stage
Bud size range	1.0–2.5 cm length (graded by calibration)
Appearance	Unopened buds, uniform color, stem-trimmed
Moisture content	≤ 11%
Foreign matter	≤ 2% (Premium) / ≤ 4% (Grade B)
Bud integrity	≥ 95% whole buds (Premium A grade)
Drying method	Shade-dried, low-temperature controlled
Color	Natural pink-red, unbleached, undyed
Shelf life	24 months in sealed packaging, cool & dry

Rose Petal Powder

Rosa damascena — micronized, food & cosmetic grade

HS Code	1211.90.00	MOQ	50 kg
Origin	Pakistan (Punjab / KPK)	Shelf Life	24 months (sealed)

Grades Available

60 mesh: Coarse, for exfoliation & scrub formulations. **80 mesh:** Standard food & face mask grade. **120 mesh:** Ultra-fine, for lotions, creams, and oral supplements. Custom mesh on request.

End-Use Applications

Face masks and clay formulations, toothpaste and oral-care products, herbal supplement capsules and tablets, functional food and beverage powders (gulkand, rose milk, fortified biscuits), pharmaceutical excipient and flavoring, and premium ayurveda/unani formulations.

Packaging Options

Retail: 50g / 100g / 250g / 500g HDPE jars or aluminum-foil pouches. Bulk: 5 kg / 10 kg / 25 kg food-grade poly bags in fiber drums. Temperature-controlled storage recommended below 25°C.

Technical Specifications

Botanical name	Rosa damascena Mill.
Mesh sizes	60 / 80 / 120 mesh (customizable)
Appearance	Fine pink-red powder, free-flowing
Moisture content	≤ 8%
Ash content	≤ 7%
Foreign matter	None (powder is pure-sieved)
Aflatoxin B1	≤ 5 µg/kg (EU / GB 2761 compliant)
Heavy metals	Pb ≤ 2 · Cd ≤ 0.1 · Hg ≤ 0.02 · As ≤ 0.5 mg/kg
Microbiology	Total plate count ≤ 10 ⁶ CFU/g · E. coli absent · Salmonella absent

Rose Water (Hydrosol)

Rosa damascena — steam-distilled, food & cosmetic grade

HS Code	3301.29.00	MOQ	500 L
Origin	Pakistan (Punjab / KPK)	Shelf Life	24 months (sealed)

Grades Available

Food Grade: Clear, potable, 0.02–0.04% essential oil carry-over — baking, confectionery, beverage.

Cosmetic Grade: Higher aromatic intensity — skincare mists, toners, masks, hair care. **Concentrated:** 2x & 5x strength on request.

End-Use Applications

Baking & confectionery (gulab jamun, lukum, kunafa, mithai), beverage flavoring, traditional medicine (ayurveda, unani, TCM), skincare mists and toners, face-mask water-phase, hair conditioners, religious and ceremonial use (Islamic, Sikh, Hindu traditions), and niche perfumery dilution.

Packaging Options

Retail: 250 ml / 500 ml / 1 L glass or PET bottles with tamper-evident caps. Bulk: 5 L / 25 L / 200 L HDPE drums or 1000 L IBC totes. Private-label bottling available at our facility.

Technical Specifications

Botanical name	Rosa damascena Mill. — steam distillate
Method	100% steam distillation of fresh petals
Appearance	Clear, colorless to very pale yellow aqueous liquid
Odor	Characteristic soft, fresh Damask rose
pH	4.5 – 5.5
Specific gravity	0.995 – 1.005 at 20°C
Preservative	None (natural) / optional food-grade benzoate
Alcohol content	0.00% (no ethanol added) — Halal certified
Shelf life	18–24 months unopened, cool & dark storage

Compliance & Documentation Matrix

Each consignment ships with a complete document pack tuned to the destination market. We issue documentation in under 72 hours of payment confirmation.

Region	Standards / Bodies	Documents Issued
GCC / MENA	SFDA (Saudi), GSO, ESMA (UAE)	Phytosanitary · COA · Halal · COO · HS classification
EU / UK	EU Reg. 396/2005 (MRLs), EC 852/2004	Phytosanitary · EU MRL lab report · COA · COO EUR.1
Russia / EAEU	TR TS 021/2011, TR TS 029/2012	Phytosanitary · EAEU COA · Declaration of Conformity
China / HK / TW	GB 2762, GB 2763, GB 29921	Phytosanitary · Form E (CPFTA) · GACC-aligned COA
USA / Canada	FDA FSMA, CFIA phytosanitary	Phytosanitary · FDA Prior Notice · COA · FSVP support
Japan / Korea	Japan FSA, Korea MFDS	Phytosanitary · Pesticide residue report · COA
Global / Halal	JAKIM, GCC Halal, MUI-aligned	Halal certificate, audit trail

Lab & Testing Panels Available

• **Pesticide residue:** GC-MS / LC-MS full EU MRL panel · GB 2763 full panel • **Heavy metals:** ICP-MS for Pb, Cd, Hg, As • **Aflatoxin B1/B2/G1/G2:** HPLC or ELISA • **Microbiology:** Total plate, coliforms, E. coli, Salmonella, yeast & mold • **Essential oil composition:** GC-MS for citronellol, geraniol, nerol, phenylethyl alcohol

Shipping Lanes & Transit Times

All consignments depart from Karachi Port (KICT / QICT terminals). We handle FOB, CFR, CIF, and DAP terms. Air freight available for samples and urgent orders.

Destination Port	Transit (Sea)	Air Option	Typical Incoterm
Jebel Ali (UAE)	3–5 days	1–2 days	FOB / CIF / DAP
Dammam (Saudi)	5–7 days	1–2 days	FOB / CIF
Jeddah (Saudi)	10–14 days	2 days	FOB / CIF
Doha (Qatar)	4–6 days	1–2 days	FOB / CIF
Istanbul (Turkey)	14–18 days	3 days	FOB / CIF
Hamburg (Germany)	25–32 days	3–5 days	FOB / CIF / DAP
Rotterdam (NL)	25–32 days	3–5 days	FOB / CIF
Novorossiysk (Russia)	28–35 days	5–7 days	FOB / CIF
Aktau (Kazakhstan, via Iran)	25–30 days	5–7 days	FOB / CIF
Shanghai / Ningbo (China)	18–22 days	5–7 days	FOB / CIF
Hong Kong	14–18 days	3–5 days	FOB / CIF
New York / Newark	28–35 days	3–5 days	FOB / CIF
Los Angeles / Long Beach	30–38 days	3–5 days	FOB / CIF
Toronto / Montreal	30–40 days	3–5 days	FOB / CIF

Container Capacity (indicative)

Product	20' Container	40' HC Container
Dried petals (compressed bales)	4.5–5 tons	9–10 tons
Dried buds (loose cartons, volume-limited)	3–4 tons	6–8 tons
Rose-petal powder (fiber drums)	6–8 tons	12–16 tons
Rose water (HDPE drums / IBC)	14–18 tons	22–26 tons

Payment Terms & Order Process

Standard Payment Options

Option	Structure	Best For
T/T 30/70	30% advance on PI, 70% against B/L copy before vessel arrival	Established relationships, repeat buyers
Irrevocable L/C at sight	100% via confirmed L/C, documents against payment	First orders, regulated markets, large values
T/T 50/50	50% advance, 50% before shipment	New buyers, smaller LCL orders
Documents Against Payment (D/P)	Bank-routed documents, payment triggers release	Mid-trust relationships
Escrow (Alibaba / bank escrow)	Funds held by escrow service until delivery	First-order buyers on marketplaces

Order Process — From Inquiry to Delivery

1	Inquiry	Buyer sends RFQ with product, grade, volume, destination port. We reply within 24 hours with incoterms and payment terms.
2	Sample	Complimentary 50–100 g sample dispatched via DHL/FedEx (buyer covers courier); full commercial invoice issued.
3	Proforma Invoice	Upon spec approval we issue PI with full product, packaging, pricing, Incoterm, payment terms, and lead time.
4	Advance / L/C	Buyer remits T/T advance or issues L/C; production scheduling confirmed.
5	Production & Quality Control	Raw material processing, in-house QC, third-party lab testing as required, customer-specific packaging.
6	Documentation	Phytosanitary, COA, COO, Halal, Commercial Invoice, Packing List, B/L — issued within 72 hours of shipment.
7	Shipment	Vessel booking, FCL/LCL loading, export customs clearance, B/L to buyer.
8	Post-shipment	Tracking link, ETA updates, arrival coordination with buyer's clearing agent.

Quality Assurance & Lab Testing

Every batch passes through a four-stage QC pipeline before release. We retain traceable samples of every consignment for 24 months to support buyer reclaim, audit, or regulatory investigation.

Stage 1	Field & Harvest Selection	Petal buds are hand-picked in the pre-dawn window (4–7 AM) at peak aroma
Stage 2	In-process QC	Moisture, color, foreign-matter, and aroma checks at drying, grading, and sieving
Stage 3	Third-party Lab Testing	Composite batch sample goes to ISO-17025 accredited labs. Panel includes pesti
Stage 4	Final Release & Packaging	Quality manager signs the batch release; material is metal-detected, UV-treated (

Certifications & Memberships

- Pakistan Department of Plant Protection (DPP) — phytosanitary authority
- Trade Development Authority of Pakistan (TDAP) — registered exporter
- Federation of Pakistan Chambers of Commerce & Industry (FPCCI)
- Halal certification (JAKIM-aligned)
- ISO-9001-aligned internal QMS
- HACCP-aligned food safety procedures for powder & rose-water lines
- Pakistan Single Window (PSW) — electronic export documentation

Buyer Services

- Custom grading, sieving, and mesh-specification to buyer spec
- Private-label packaging and printed cartons
- Third-party lab panels beyond our standard (SGS / Bureau Veritas / Intertek)
- Pre-shipment inspection (PSI) scheduling
- Multilingual documentation (English, Arabic, Russian, Simplified Chinese)
- Buyer-market compliance advisory (SFDA / EU / EAEU / GACC)

Request for Quotation

Let's build the shipment that fits your book.

To receive a proforma invoice, send us the following via WhatsApp or email — we respond within 24 hours (usually within 2–4 hours during Pakistan business hours, GMT+5).

Field	Example
Product & grade	Dried rose petals — Premium A — tea-blending grade
Quantity	500 kg, 1 ton, 1x 20' FCL, 5x 40' HC per year, etc.
Destination port	Jeddah / Novorossiysk / Shanghai / Hamburg / New York
Incoterm	FOB Karachi / CIF destination / DAP
Packaging preference	Retail 100 g / bulk 25 kg / private-label
Delivery timeline	Immediate / within 30 days / monthly standing order
Payment preference	T/T 30/70 / L/C at sight / other
Buyer information	Company, country, VAT/tax ID, clearing agent if known
